HS2 Update

Greatworth to Thorpe Mandeville | May 2021

High Speed Two (HS2) is the new high speed railway for Britain. In response to COVID -19 we have worked hard to ensure that our working practices are fully aligned with the Site Operating Procedures produced by the Construction Leadership Council. These procedures have been endorsed by Public Health England. We will be keeping our local website www.hs2innorthants.co.uk up to date with information on our works in the local area.

Update on our main works

Our activity in the Greatworth to Thorpe Mandeville area is well underway with the main works compound known as the 'Greatworth Green Tunnel Compound' being set up and some early construction works starting.

Over the summer our activity will extend from the compound and you can expect to see the following works in the local area:

- Ground Investigations (GI);
- Utility works including trial holes;
- Land surveys to measure land levels;
- Completion of the 'Greatworth Green Tunnel' Compound;
- Installation of a concrete batching plant;
- Localised clearance of vegetation and fencing along the line of the route;
- Construction of access and haul roads to move people, material, and earthworks along the line of the new railway, rather than on local roads;
- Excavation, movement, and storage of earthworks; and
- Some short duration traffic management and temporary footpath diversions to carry out some of the above activities.

Join us online...

We regularly hold **Virtual Surgery events** – contact the HS2 helpdesk to register your interest.

The virtual surgery will give you the opportunity to ask your questions to our engagement team about the HS2 works in your area.

Simply book your slot by contacting the HS2 helpdesk or email engagement@ekfb.com.

Upcoming works

Greatworth Green Tunnel Compound

We have been building the compound over the past few months and it will be fully operational by June. The works compound will accommodate a workforce of around 400 people as well as office accommodation for 120. The facilities include offices, welfare facilities, materials laboratories, first aid facilities, car parking and a concrete batching plant. When the compound is no longer required for our construction activities, it will be removed and the land returned to agricultural use.

Concrete batching plant

In May 2021 we will start to construct the concrete batching plant. A concrete batching plant is used to create, store and distribute concrete locally to the project, which will help to take additional HGVs off the road. All batching plant activity is very well controlled and monitored. The modern systems that we use operate a 'sealed system' which means that cement is pumped into silos and the mixing process does not allow dust to escape into the atmosphere.

Site clearance and fencing

Fencing and site clearance works are substantially completed, though in some areas we expect to continue these activities over the summer.

Road construction and earthworks

Temporary roads will be constructed to provide access for people and materials along the line of the new railway, helping to keep construction vehicles off the local roads. We will also be constructing a new section of road to divert the B4525 while we build the green tunnel.

We will start earthworks activities in July and this will involve excavations to build the tunnel and move earthworks to stockpiles. Associated works will involve drainage and forming settlement ponds.

Roads and Public Rights of Way closures and diversions

We are working hard to minimise the impact of our works on the road and public rights of way network during our construction works. However, we will need to carry out some short-term road closures as well as closing or diverting some of the public rights of way that are in the vicinity of the new HS2 line during our works. Please allow further time for your journeys.

Sulgrave Road/Greatworth Road will be closed for around three weeks in the summer to allow power installation to our Greatworth compound.

A section of footpath AN39 will be closed in July and other footpaths such as AN40, AN42, AN6 and AY12 will have local diversions. A map identifying footpaths can be found at: http://maps.northamptonshire.gov.uk/

Remember to sign up to our Commonplace website to read the online traffic guide or request a copy from the HS2 Helpdesk.

Keeping you informed

Residents' Charter and Commissioner

We are committed to keeping you informed about work on H52. This includes ensuring you know what to expect and when to expect it, as well as how we can help.

Contact Us

The Residents' Charter is our promise to communicate as clearly as we possibly can with people who live along or near the H52 route. www.govuk/government/publications/hs2residents-charter We also have an independent Residents' Commissioner whose job is to make sure we keep to the promises we make in the Charter and to keep it under constant review. Find reports at: www.govuk/government/collections/hs2-ltdresidents-commissioner You can contact the Commissioner at:

residentscommissioner@hs2.org.uk

Construction Commissioner

The Construction Commissioner's role is to mediate and monitor the way in which HS2 Ltd manages and responds to construction complaints. You can contact the Construction Commissioner by emailing: complaints@hs2-cc.org.uk

Property and compensation

You can find out all about HS2 and properties along the line of route by visiting: www.gouuk/government/collections/hs2-property Find out if you're eligible for compensation at: www.gouuk/claim-compensation-ifaffected-by-hs2

Holding us to account

If you are unhappy for any reason you can make a complaint by contacting our HS2 Helpdesk team. For more details on our complaints process, please visit our website: www.hs2.org.uk/how-to-complain

EKFB Working HS2 **Traffic Information Guide** Greatworth to Southam | Winter 2020

Greatworth to Southam | winter 2020

High Speed Two (HS2) is the new high-speed railway for Britain. We have committed to create a low carbon railway that is designed, built and operated to the highest health, safety and security standards.

About this guide

This traffic guide will give you details of how construction traffic is going to be managed in your area. Take a look at the routes that we plan to use between Greatworth and Southam, along with our forecasted peak deliver y numbers. You can gain an overview of the control measures that are in place across the whole HS2 route, as well as specific local actions, such as junction improvements and crossings.

About EKFB

EKFB is the main works contractor carrying out the civil engineering works for the new HS2 line in this area. EKFB will undertake all earthworks and landscaping as well as create new structures including bridges, viaducts and green tunnels. The construction works are being planned in a way that will minimise disturbance on local roads and access between villages. You can find details in this guide. Normai working hours: Monday to Friday 8.00am - 6.00pm Saturdays 8.00am - 1.00pm Contractors may be on site for one hour's start-up and shutdown either side of these times and

HS2's Site Working

these times and construction traffic might also be present during these times.

In some cases, work outside normal hours may take place, and we will inform communities when this occurs.

Construction traffic and worker cars may arrive earlier and depart after the working hours.

HS2 and the role of the Highways Authority in highway matters

The HS2 Act of Parliament provides HS2 Ltd and their contractors with the powers to work in the highway to construct the new railway. The responsibilities that councils have for HS2 works differ slightly from other highways work. In all cases, the local Highway Authority is consulted and in certain cases, the consent of the highway authority is required. HS2 Ltd and their contractors produce Local Traffic Management Plans and work very closely with the councils and their highways teams to ensure that traffic is well managed. HS2 Ltd is only required to seek consent on traffic routes for vehicles over 7.5 connes. Further information can be found in the HS2 Act or see details for the HS2 Helpfelsk on the back of this Guide.

Above is the example layout of the traffic guide. We recommend printing in A3 for best quality. If you have a questions about HS2 or our works, please contact our HS2 Helpdesk team on 08081 434 434 or email hs2enquiries@hs2.org.uk

Welcome to HS2 in Northamptonshire

Keep up to date with our works

Commonplace website

Our Commonplace website provides the most up to date information about our works in this area.

We would recommend subscribing to our news updates in the Northamptonshire area. You can do this in three easy steps:

- 1. Visit our Commonplace website www.hs2innorthants.co.uk
- 2. Under 'Subscribe to news updates', enter your email address and click 'Get Project News'
- 3. Now you will get up to date information sent to your email address

On Commonplace you can also view more information on our proposed designs, community engagement documents as well as information on upcoming events in your area.

FAQ

Some of our most commonly asked questions in your area...

Q: How are you protecting birds during nesting season?

A: Before any work close to trees or vegetation is undertaken, an ecologist attends the site and carries out a detailed survey to ensure no bats, birds or nests are present. If any wildlife or nests are discovered, the tree is left alone until the bird leaves the nest, and a boundary is put in place to ensure they are not disturbed.

Q: Are you tracking your HGVs to ensure they follow approved routes?

A: We have a vehicle management system in place to ensure we can track all regular vehicles and hauliers delivering to our sites. We can monitor the routes taken, reroute vehicles where necessary, and reject any vehicles who do not comply with our strict criteria.

Q: How are you managing dust at your work sites?

A: We are using dust suppression systems at our sites. We spray down work areas, haul routes and plant using water bowsers to prevent dust from becoming airborne. We also use dust monitoring techniques to ensure we can monitor air quality levels close to our work sites.

Community Investment

We have been active in getting to know the local communities and have participated in local charity walks, Dementia Friends training, donated items for local foodbanks and even held a fundraising day to raise money for Berryfields Parish Council who needed to buy 120 children pyjamas last Christmas.

We have launched a volunteering Time Bank scheme where you can apply for the use of dedicated time from within their experienced team to provide practical support to communities. From litter picking and planting trees to help with social media or website support, there are many ways we can help!

We are keen to support with volunteering and fundraising work for local charities. If you would like to know more then please contact the HS2 Helpdesk.

HS2 funds for the community

There are two funds which are available to local communities to help with disruption that will be caused by the construction of Phase one of HS2 – **The Community and Environmental Fund (CEF)** and the **Business and Local Economy Fund (BLEF).**

Community and business groups along the HS2 route have been awarded over £5million for projects since the funds began running in March 2017. So far in the area, HS2 has provided funding to Greatworth Community Transport Association to lease a 16-seater community minibus which will provide a service for the communities of Greatworth and the surrounding area for a period of three years during the main HS2 construction works.

For more information on the funds available visit www.hs2funds.org.uk

Dementia Friends

Keeping you informed

We are committed to keeping you informed about work on HS2. This includes ensuring you know what to expect and when to expect it, as well as how we can help.

Residents' Charter and Commissioner

The Residents' Charter is our promise to communicate as clearly as we possibly can with people who live along or near the HS2 route.

www.gov.uk/government/publications/hs2-residents-charter We also have an independent Residents'

Commissioner whose job is to make sure we keep to the promises we make in the Charter and to keep it under constant review. Find reports at:

www.gov.uk/government/collections/hs2-ltdresidents-commissioner You can contact the Commissioner at: residentscommissioner@hs2.org.uk

Construction Commissioner

The Construction Commissioner's role is to mediate and monitor the way in which HS2 Ltd manages and responds to construction complaints. You can contact the Construction Commissioner by emailing: complaints@hs2-cc.org.uk

Property and compensation

You can find out all about HS2 and properties along the line of route by visiting: www.gov.uk/government/collections/hs2-property Find out if you're eligible for compensation at:

www.gov.uk/claim-compensation-if-affected-by-hs2

Holding us to account

If you are unhappy for any reason you can make a complaint by contacting our HS2 Helpdesk team. For more details on our complaints process, please visit our website: www.hs2.org.uk/how-to-complain
